# COMMERCIAL AUTO TELEMATICS PROGRAMS

## DATA SHARING DISCOUNT FOR PARTICIPATION

BHHC is now offering a premium discount to insureds who sign up to share their electronic logging device (ELD) or telematics device data.

Data shared with us will primarily be used to help better our commercial auto product and offerings. The insured's premium will not go up midterm due to them agreeing to share their telematics data.

## HOW TO SIGN UP

If an insured agrees to share their data with us, and has a participating telematics service provider, please email [CVTechnology@bhhomestate.com](mailto:CVTechnology@bhhomestate.com). Include the insured's policy number, their preferred email address, and the name of their eligible telematics service provider.

An email with instructions will be sent to the insured once you provide their information. The insured must complete the sign up process before receiving the discount. The sign up process through our vendor varies dependent on which telematics service provider the insured has. In most cases, the process only takes the insured a couple of minutes to complete.

## ELIGIBLE PROVIDERS

We are partnering with vendors that will allow us to access an insured's ELD or telematics data. Popular telematics service providers that are eligible:

- Motive
- Samsara
- Verizon Connect
- Geotab
- Azuga
- And many more!

To inquire whether a particular TSP is eligible, please email [CVTechnology@bhhomestate.com](mailto:CVTechnology@bhhomestate.com).

## AVAILABILITY

Currently, this is available to our fleet and nonfleet business. The discount is available on new business and renewals.

This participation discount is not available for non-admitted policies or policies with excess limits. Discount may not be available in all states.
